

# TAPERED STEEL POLES

Engineered for maximum netting spans

Curlewis Golf Club, Australia.  
98' high steel poles with Dyneema golf barrier netting

## STEEL POLES

Round or multi-sided

High strength steel

Multi-section; Slip-fit or flanged

Poles can be designed for future height extensions

Free standing or guyed

Pre-cambered dead end and angle poles (eliminates guy wires)

Heights of 200 ft. (60m) and spans of 100 ft. (25m)

Direct burial or anchor cage design

Hot dip galvanized and powder coated finish

Custom attachment options for pole: LED light attachment, cell tower integrated poles, security cameras, banners

## SPORTS NET STRUCTURE DESIGN

Structures engineered to local design standards

Wind loads verified by wind tunnel testing

Fatigue resistant connections

Custom welded net connection brackets and fittings

Tapered poles provide an architectural look

Longer spans and a nearly invisible net for a wide open feeling

Custom designed for your sports facility

Consistently delivering high quality structures and netting systems
